

Ref: First Aid in Football - Risk Management & Insurance Department

Please review the attachment ([Click here for attachment.](#))

Hi Team

A great day for our club. A moment to cherish. This is hard work over time. We have achieved and made an amazing impact in First Aid in Football at club level.

The work that has been done so far at our club has reached heights that you cannot have imaged. You are all part of this success.

We want you to celebrate with us together this moment.

Safety first before winning. Always check the safety of the child first. I prefer to lose a championship or a game than to see one child get injured. I have seen teams win 5-0, think they are the greatest team of all time yet when one of their players get injured they don't have a first aid bag, or sponge, or a little bit of water to assist..

This article/case makes me proud to be at Oakleigh. We have set a high standard in safety. Stay focused.

Regards,

John Kostopoulos
